**PLEASE NOTE:**

Village residents are asked not to flush certain items down their drains (sinks, toilets, tubs etc.), paper towels, napkins, diapers, baby wipes, other wipes such as Clorox, Windex, etc., ladies' products, cloth or any similar-type materials.

These items are commonly found in the Village sewer system and cause blockages in the system, which can result in sewer backups in homes, businesses and other facilities.

**Village Compost Site**

The Village Compost Site is located at the D.P.W. Garage on Bachelor Street. The hours of operation are 7 a.m. until 3 p.m. Monday through Friday and Saturdays 9 a.m. until 2 p.m. This is for Village residents only and not commercial dumping. The Village will pickup curbside for a nominal fee. Please make arrangement with the D.P.W. at 457-5321. This applies for bulk pickup as well, which can be picked up curbside for a fee.

**Mayor's Message.....**

I would like to extend a heartfelt thank you to Brian Fitzpatrick for all that he has done for the Village of

Montgomery, as well as the Town of Montgomery over the past many years. Brian has dedicated more hours to local non-profit organizations and causes than anyone I know. He is a past President of the Town of Montgomery Chamber of Commerce, a member of the General Montgomery Day Parade Committee, the Bandstand Committee, the St. Pat's Ramble Committee and countless other committees. His tenure on all these committees isn't passive by any realm of the imagination.

Brian was instrumental in helping to start the St. Pat's Ramble, and many brilliant ideas came from him since the inception of this event. He pushed for the branding, and he was remarkable in promoting this great event.

He also was the catalyst in bringing the Memorial Day Parade and tribute to the magnitude that it is today.

Countless hours and thoughts were also spent on the Bandstand Committee. Whether it was planning for the bandstand, green area, attaining sponsors, helping schedule bands, set up and cleanup, Mr. Fitzpatrick was actively involved with everything. There is nothing he didn't do.

The Annual Car Show also was begun by Brian and Trustee Mike Hembury. That is an amazing occasion for our community, and it has improved each year. It takes a lot of work, but that is something that is in Brian's blood. Even the Christmas Celebration and

shopping day at the beginning of each December was commenced by this incredible man. He has helped tremendously in bringing businesses and residents together. In large measure, our downtown revitalization owes a lot to him.

He is also one of the founding members, and one of the most active, of the "Breakfast Club". This is a group of local people who like to have a little fun, but, more importantly, they spend a great deal of time helping out the community with charitable causes. Brian is also active with St. Mary's Church and has spent numerous hours volunteering there.

Brian recently submitted his letter of resignation from his committee

involvement effective September 1st, though he verbally said that he would go until October 1st. He has said that he was going to resign a few times in the past, and we always dreaded when this day would come. He is definitely irreplaceable.

We have tried to honor Brian as Grand Marshal in the past, whether it was General Montgomery Day or the St. Pat's Ramble, but he respectfully declined. That shows just how humble he is. He is a simply a selfless, benevolent, affable, courteous, fun loving man. Please join me in thanking Brian for all he has done for our community. We are indebted to him in more ways than the imagination will allow.

## Village of Montgomery DPW News

Village of Montgomery Supt. of Public Works and the Village Engineer have been working with Ad-Edge Water Technologies from Duluth, Georgia to help correct the brown water problem in certain areas of the Village, especially around Waters Edge. They have had success at filtration systems in Orange County, and we are hopeful to have favorable results here. We are running a pilot study that will be sent to the Orange County Department of Health for review. If the tests go well, construction of a filtration system will begin within the next few months.

The Village Board and Public Works Department are quite sympathetic to the affected residents. We have been working on this problem for a long time. Here is a list of some of the measures that have been undertaken:

- In 2008 there was a poly-ortho phosphate system installed at Holt Wells 3 & 4 for approximately \$7,000 to help soften the water and alleviate iron & manganese – that which causes brown water
- In 2010 a new 10" water main was installed on the entire length of Weaver Street at a cost of \$351,000 (paid by a HUD Grant).
- Approximately 40 house filter systems were installed in homes

experiencing brown water on a regular basis. These filters covered the whole house. The cost is about \$400 per house, which includes part and labor. Subsequent filter replacements have been done regularly for an additional cost to the Village.

- 724 gallons of bottled water have been distributed to residents on Dunn Drive and Waters Edge from November 24, 2015 to November 10, 2016.
  - Testing on Holt Well to determine the source of brown water will exceed \$20,000 in 2017 alone
- Testing was done in previous years as well.
